FROM: Tom Munson, Reclamation Specialist *TM*

RE: Site Inspection, Martinque Mining Company, Crescent Creek / Mayday Mill Project, S/017/043, Garfield County, Utah

Date of Inspection: October 26, 2001
Time of Inspection: 2:00 p.m.
Conditions: Sunny
Participants: Tom Munson, DOGM and Buzz Rakow, BLM

Purpose of Inspection: To effect a transfer document that the division had received July 12, 2001

Getting to the site: The site is found on the Raggy Mountain Quadrangle. It is south of Hanksville and up the Crescent Creek Road.

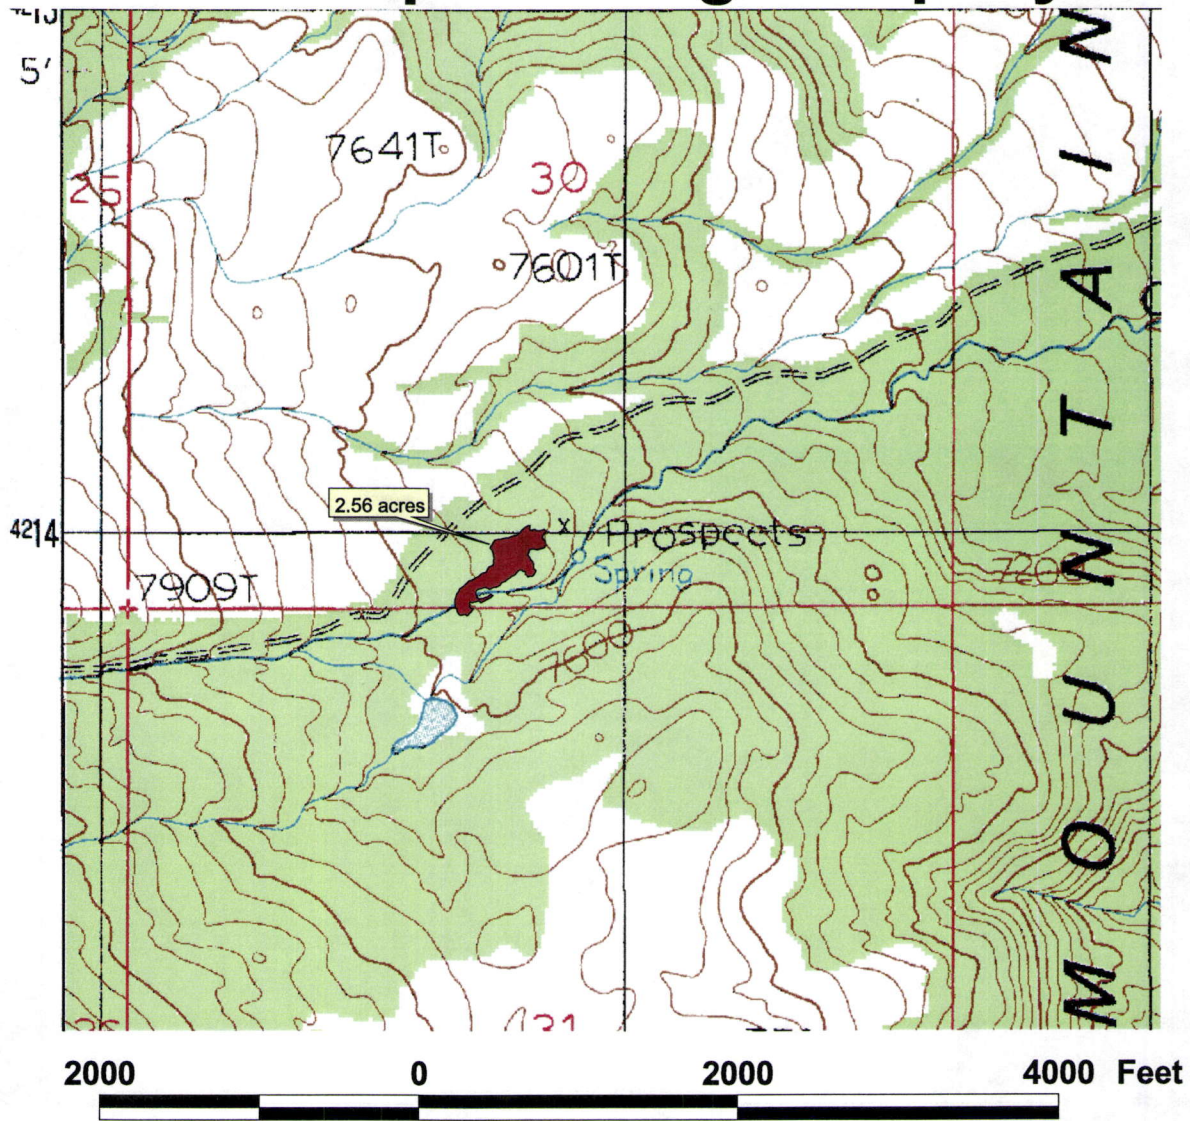

Observations: The mill site has not been used for quite a while as evidenced by the amount of equipment in disrepair. The site was GPS'd and it was determined to be approximately 2.56 acres in size. It was recommended by the BLM that we try and get some clean up of the site and possibly some removal of the junk that is no longer needed. In its current condition it is totally unusable.

Conclusions and Recommendations:

The transfer be completed and hopefully in the coming year the site can be cleaned up and the junk removed.
